THE FUTURE OF HAZMAT TRAINING MANAGEMENT IS HERE
Seamless Dangerous Goods & Hazmat Training Management Solutions

ADVANCED TRAINING MANAGEMENT SYSTEM

Robust ■ Enterprise-wide ■ Integrated

Serving training operations around the globe since 2000, AQT Solutions is a leading provider of comprehensive and cost-effective training management software designed for manufacturing, transportation and logistics companies; including freight forwarders, 3PL's, courier operations, shippers and carriers of hazardous materials/dangerous goods and airport authorities. Our ATMS system is an enterprise-wide, integrated solution that manages dangerous goods training programs delivered through onsite instructor-led and e-learning models to meet the compliance training needs of these heavily regulated organizations.

Curriculum Design & Development

Optimizes training quality, time and costs through custom course development

Scheduling & Resource Management

Displays the schedule by courses using multiple views including Gantt and calendar

Recordkeeping & Reporting

Maintains comprehensive trainee history and easily generates reports

E-Learning & Progress Evaluation

Flexible e-learning delivery with real-time progress tracking from anywhere on any mobile device

Why Choose ATMS™?

- ✓ RECORDKEEPING MANAGEMENT
- ✓ INTEGRATED LMS PLATFORM
- ✓ VALIDATED TRAINING & CERTIFICATION
- ✓ FLEXIBLE MOBILE GRADING
- ✓ AUTOMATED SCHEDULING
- ✓ HIGHLY CONFIGURABLE

ARE YOU AUDIT-READY & COMPLIANT?

The Problem?

Federal regulators conducting frequent audits, greater scrutiny of training records, increasing volume of regulations to adhere to. Reliance on manual, archaic process to manage training is costly and inefficient.

The Solution? As the requirements of training and management evolve, so will the need for a robust training and recordkeeping system to keep your valuable trainees current and qualified with a modern, integrated and user-focused platform. The future of dangerous goods/hazardous materials training management system is ATMS. Advance your DG/HM training delivery, improve consistencies in training, and ensure recurrent training scheduling and compliant recordkeeping on a platform that enables end-to-end, integrated training.

Flexible Access For Administrators, Instructors & Trainees

THE MODULES

Comprehensive Training. Compliance Assured.

CURRICULUM DEVELOPMENT

- ✓ Supports the development of training programs across multiple regulatory areas.
- ✓ Maintains, builds and delivers all training courses from one central location.
- ✓ Designs each course based on its particular governing body specifications.
- ✓ Defines personnel responsible for approval or instruction of training courses.
- ✓ Creates training courses to be delivered on an automatic recurrent basis.

SCHEDULING & RESOURCE MANAGEMENT

- ✓ Displays schedules by course showing classroom, instructor and trainee availability.
- ✓ Sends automatic email notifications to trainees.
- ✓ Allows an administrator to approve a completed course, triggering a recurrent training date.
- ✓ Notifies administrator when a trainee fails or does not attend a training event.
- ✓ Prevents unqualified instructors from being assigned.

TRAINING RECORDS & CERTIFICATION

- ✓ Maintains comprehensive electronic recordkeeping for each trainee to ensure compliance based on each course with easy reporting.
- ✓ History of course specifics is maintained for each trainee for each course completed or started.
- ✓ Allows administrators to approve a completed course, triggering a recurrent training event.
- ✓ Advance warning of training expiration dates to allow administrators to take preventative action.
- ✓ Generates and stores certificates of completion and additional licensing information.

E-LEARNING & EVALUATION

- ✓ Delivers SCORM-compliant e-learning content.
- ✓ Access content from multiple web browser.
- ✓ E-learning content delivered, tracked and maintained for each trainee in one system.
- ✓ Real-time tracking of e-learning progress.
- ✓ Immediate instructor review of historical training results.

ATMS™
DANGEROUS GOODS

OUR CLIENTS SAY IT BEST

“AQT’s ATMS provides all training functions in one product. All of its features are easy to use while it provides a one stop solution for today’s complicated resource scheduling needed in the training environment.”

- GREGG KEYS -
Integration Team Lead, CAE USA

ABOUT

AQT SOLUTIONS

Located in Napa, California's Premier Wine Region

AQT Solutions is a leading provider of comprehensive and cost-effective training management software to training operations to ensure compliance.

In March of 2000, AQT set out offering ATMS to multiple sectors of the aviation industry. These sectors include the commercial airlines, cargo carriers, 3rd-party training companies, military, crew providers, regulators, corporate operators, oil and utilities, helicopter operators, service contractors, charter operators, and fractional ownership operators. ATMS was originally developed and implemented at Alaska Airlines in 1998.

- The AQT management team has extensive experience in aviation training and software implementation and integration. Bill Carson, CEO, has over 25 years of managing enterprise application development, implementation and integration projects. Bill's background and experience in the aviation industry began at NASA's Human Factors Division, focused on man-machine integration projects such as head-up displays, flight deck CRM, long-haul sleep studies, and other human performance research. As leader of the AQT management team, Bill's leadership and vision help to continuously improve and evolve ATMS (Advanced Training Management System).
- As AQT's Director of Sales, Jason Keith has an exemplary understanding of ATMS, having implemented and used the system directly for over five years. As a pilot and Flight Instructor for over 20 years, and Director of Flight Training for five years at one the US's largest air cargo airlines, Jason managed their training department, as well as orchestrated the transformation from manual to automated training processes. As a result, Jason understands the value in achieving higher levels of training efficiency and simplifying complex recordkeeping requirements. Jason's methodologies were highly structured and utilized military-precise standards. Jason is well-versed in the needs of ensuring quality, safety and compliance.
- As AQT's Regulatory Compliance Analyst, Melissa Powers has extensive experience utilizing ATMS for a variety of training management systems. As AirNet System's Regulatory Compliance Coordinator for over 15 years, Melissa was responsible for managing an extensive dangerous goods training program, TSA security programs and an airport security program. Melissa is knowledgeable in areas of dangerous goods/hazmat and TSA compliance and the complexities surrounding these regulatory environments.
